Northeast Atlanta	54	5,746	0	0	126	126
Northlake	19	2,994	0	0	12	12
Northwest Atlanta	63	14,223	0	0	100	100
South Atlanta	0	785	0	0	5	5

Display data views geographically.

See how various data concepts look on a map to compare and contrast performance at market and submarket levels. Save and export your customized maps for easy reference.

Leverage CBRE's proprietary effective rent index.

Compare rent movements across markets and over time accounting for characteristics, composition of stock, and changes in building characteristics. See the market through CBRE's unique prism with lease transactions data not found elsewhere.

Put our perspective and connections to work for you.

Hear directly from our thought leaders and economists. We are constantly observing trends, monitoring the leading indicators, and analyzing the data. Ask questions and hear our perspectives on major trends affecting performance.

Speed your work with a direct connection to our data warehouse.

Managing your analytical tools is easy when you can pour data directly into your workbooks. Create queries and update your workbooks at the click of a button. Clone, edit, and share queries with your team.

	Boston	New York	Chicago	Dallas	San Francisco	Washington
2006	27.12	57.07	23.84	17.72	21.40	
2007	30.00	68.40	23.83	18.71	25.20	
2008	32.71	70.64	24.96	19.67	28.10	
2009	27.73	56.00	23.78	18.28	22.15	
2010	26.86	52.97	22.87	17.68	21.51	
2011	27.33	56.84	22.29	17.78	24.93	

Identify trends for a subset of properties.

Select a group of properties by address and property characteristics. A snapshot, historical trends and frequency distributions are at your fingertips. Save and export features make it easy to refresh your reports.

FREQUENTLY ASKED QUESTIONS

CBRE offers unique insight, experience and solutions to serve the needs of real estate occupiers and investors. Our professionals, unsurpassed in their local market expertise, are supported by industry-leading econometric forecasting, market research and specialized expertise to help clients make informed decisions.

How do I gain access?

Through a license agreement. For details and associated fees, please call us at +1-617-912-5200 or submit a request via our "Become a Client" form on our website.

How often do you offer product training?

Daily. We offer WebEx training regularly, just let us know what you need help with and we'd be happy to schedule training at your convenience.

What if I have questions about our data?

We are responsive. We'll connect you to the appropriate economist or point you to our documentation.

What is your market coverage?

- United States major markets and submarkets for office, industrial, retail, apartment and hotel
- Canada major markets and submarkets for office and industrial
- Europe major markets office

What data concepts are included?

- Supply, demand, rents, vacancy
- Gross income, NOI, cap rate
- Population, employment, income

Do you perform backtesting?

Econometric modeling and forecasting, like any science, typically improves with time. Throughout our lengthy history, we have repeatedly backtested our forecasting models. Indeed, as the result of our exercise in backtesting, we enhance our forecasting models at appropriate intervals. We evaluate the quality of our models at regular intervals and to keep our clients informed of additional enhancements if we make them.

Do you share our forecasting methodology?

The core of our approach reflects the modeling of standard economic theory that relates new capital formation (investment) to asset prices. We provide clients with concise written explanations of our approach.

How do you compile your data?

For all property types, as well as capital markets fundamentals, our data are extracted and compiled from internal CBRE sources, including our local market researchers, as well as third-party data vendors. For quality assurance, our data undergo an extensive process of validation before they are used for forecasting. Both our history and forecasts pass through a final process of quality assurance before they are posted to our data warehouse.
